

Applied Communication Sciences Awarded Contract to Assist SEC's Monitoring of Financial Markets

Six Additional Task Orders Will Enhance Agency's Ability to Respond to Trends & Risks in Capital Markets

BASKING RIDGE, NJ – November 20, 2014 – [Applied Communication Sciences](#) (ACS) has been awarded a contract by the U.S. Securities and Exchange Commission (SEC) to incorporate advanced analytics into the monitoring of trends and risks in financial markets.

The contract's six new task orders are a part of the SEC's Quantitative Research Analytical Data Support (QRADS) program which supports the agency's Division of Economic and Risk Analysis, created in 2009 to integrate financial economics and rigorous data analytics into the core activities of the SEC.

The new work draws on the deep experience ACS has in data modeling, text and data analytics, statistical programming and project management.

The QRADS work has a total estimated ceiling of \$67M over 5 years.
