

## **Vencore Appoints Dr. Steven Omick as President of Its Applied Communication Sciences Lab Group**

*Industry Veteran Brings Extensive Government Research and Senior Corporate Experience*

**BASKING RIDGE, NJ – November 5, 2014** – Vencore, Inc. has appointed Dr. Steven Omick as president of its Applied Communication Sciences (ACS) research and engineering lab. An 18-year veteran of the intelligence community, Dr. Omick has had numerous senior roles in design, development, engineering, and large-scale program management.

“Steve brings a wealth of high technology and mission-focused leadership experience,” said Mac Curtis, President and CEO of Vanguard. “His insight and energy will be of broad benefit across our client base.”

“I am honored to be a part of the ACS legacy and eager to enhance its on-going national and industry contributions,” Dr. Omick said. “More than ever, our capabilities are in critical demand by both our government and commercial clients.”

Dr. Omick succeeds Brent Greene, who previously announced his retirement. “We are grateful for Brent’s leadership in navigating ACS through several M&A transactions and numerous key contract wins in both the federal and commercial sectors,” noted Curtis. “We wish him the best in his well-earned retirement.”

Prior to joining ACS, Dr. Omick was the President and Chief Executive Officer of Rincon Research Corporation, a scientific and engineering research company providing a broad range of services and products to the U.S. Government.

Dr. Omick holds a Bachelor degree in Electrical Engineering, a Master degree specializing in Power and Control Systems, and a Doctorate, specializing in Computational Electromagnetics, all from New Mexico State University.
